YEARS IN ENGINEERING	CLIENT SATISFACTION	ESCALATIONS IN GLOBAL DELIVERY	AI-ASSISTED PRODUCTIVITY LIFT

POSITIONING

AI-forward engineering leadership backed by visible delivery proof.

- Leads engineering teams across global client contexts with calm ownership and stakeholder alignment.
- Shapes scalable systems across cloud platforms, microservices, event-driven systems, serverless delivery, and modern full-stack architecture.
- Drives AI-assisted engineering practices across code generation, debugging, documentation, delivery workflows, and decision support.

LEADERSHIP

LEADERSHIP OPERATING SYSTEM

01

Clarify the outcome

Start from business intent, stakeholder risk, delivery pressure, and the decision that needs to be made.

02

Architect for reliability

Translate ambiguity into scalable systems, maintainable boundaries, measurable quality, and calm production execution.

03

Use AI as leverage

04

Make proof visible

Proof system

- Awards and recognition for ownership, delivery, and leadership impact.
- 92 certificate and course proof images across cloud, AI, GraphQL, engineering, and leadership.
- Personal projects showing product thinking, AI usage, and craft.
- Conference presence, client travel, book contribution, and

Apply AI-assisted workflows to accelerate delivery, improve documentation, reduce friction, and expose better options.

Close the loop with products, client trust, certifications, awards, conference presence, and measurable delivery signals.

recommendations.

Education
BTech, Computer Science
Maharshi Dayanand University
2012 - 2016

SELECTED IMPACT

- Built connector systems integrating 90+ external data sources across OAuth, ingestion, reporting, and enterprise media workflows.
- Delivered banking-domain ACH debit payment, fraud detection, and transaction workflows where trust and reliability matter.
- Contributed to long-term client retention and multi-year engagements through delivery quality and communication discipline.

Available for senior engineering, AI-led delivery, and architecture conversations.

Best viewed with the full personal brand site for awards, certifications, project screenshots, conference proof, and recommendations.
